

PROAV DESIGN GUIDE

Boardroom

Executive-ready space for up to 22 attendees with three displays and one-touch join.

Reference layout: dual 86" displays, ceiling mics & speakers, PTZ camera, touch whiteboard, executive table.

Executive-ready, the moment you walk in.

The ProAV Boardroom, designed with executives in mind, is intended for three displays and up to twenty-two in-person attendees. A touch panel provides native functionality for Microsoft Teams and Zoom Rooms with one-touch meeting join, calendar integration, and native device control. It is a dedicated space ready for immediate executive use.

The boardroom features pro AV displays, ceiling microphones, speakers, and a high-resolution PTZ camera that provides a continuous view of the table. An interactive touch display is set up to be used in Whiteboard companion mode for live brainstorming and markup.

Professional AV rooms typically require a certified ProAV integrator to design, integrate, and support. Creation Networks brings two decades of certified design, install, and support across corporate boardrooms, government, education, and healthcare.

FOOTPRINT	TECHNOLOGY	FURNITURE
22' x 40' 880 sq ft Seats: up to 14	\$75K-\$95K Camera tracking, video, audio & control	\$175K-\$260K Large Table & Seating for 20 participants

KEY FEATURES

- One-Touch Join
- Dual 86" Displays
- PTZ Camera
- Ceiling Mic Array
- Touch Whiteboard
- Teams + Zoom

PRICING NOTE

All pricing is conceptual and based on the wide range of product choices available. Each space has unique considerations: acoustics, build-out, labor, and infrastructure.
